Meadowview Golf Course - Owen, WI

Our 5000 meter course consists of 2 loops throughout the Meadowview Golf Course. It is relatively flat and spectator friendly. There are two bridges that cross a creek that runs through the course - a metal bridge that will be covered in rubber mats and a wooden bridge that will not be altered. The course will run along the outside of, and cross the fairways throughout the course. There should be no concern about spikes on this course. Considerable rope will be used around the course to keep spectators off the competition course and also off the putting greens.
